Re: Use of Trade Marks in Mexico

Dear Sir :

Please note that a Trade Mark registered in Mexico may be cancelled if it has not been used continuously in Mexico during five years. Such a cancellation may be applied for by any third party or the Trade Mark Office may start cancellation proceedings on its own account.

In order to avoid the loss of the Trade Mark a non-use renewal may be applied for before the extinction of the fifth year from the date of the interrupted use.

The goods covered by a Mexican Trade Mark should bear one of the following inscriptions:

"MARCA REGISTRADA" or " MARCA REG."

The place where the goods are manufactured should also -- be indicated.

We are at your entire disposal for any information you may desire concerning the registration of Trade Marks or the obtention of Patents in any country of Central or South America.

Yours very truly,

*Felix B. Dumont*
